- EMV 2000 Level 1 approved and support 3V and 5V cards

Secure Your Productivity

The IOGEAR 104-Key Keyboard with Built-in Common Access Card Reader is designed to offer high security in a versatile and portable design. The Keyboard offers a one-stop solution with TAA-compliance and support for multiple Smart Card protocols and is designed for U.S. organizations and businesses to protect institutional data and intellectual property via a common access card/smart card system integrated into a comfortable 104-key standard keyboard.

A wired USB connection helps provide secure, fast data and authentication transfers. The USB allows for plug and play features with Windows or Mac desktops or laptops.
