

ICY BOX IB-AC518

SlimPort® to VGA Adapter

Key features

- Adapts SlimPort® (Input) to VGA (Output)
- Supports resolution up to 1920x1080@60Hz
- Micro USB to connect the mobile device's power supply
- Provides charging function for the mobile device
- Compatible with all VGA-capable displays

Packing content
1x IB-AC518

High Quality Video Output

The IB-AC518 SlimPort® to VGA Adapter can output video signals directly from the SlimPort® enabled mobile device, such as mobile phones or Tablet PCs, to the VGA embedded displays like a TV. With micro USB port charging function, the adapter allows the device to transmit signals and to charge simultaneously. Low power consumption and high resolution video output make your visual experience better than ever.

Technical data

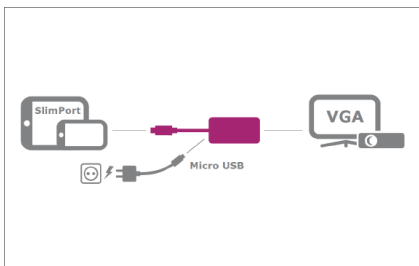

Model	IB-AC518
Article nr.	70546
EAN Code	4250078160779
Brand	ICY BOX
Resolution	Full HD up to 1920x1080@ 60Hz

Colour	Black
Material	Plastic
Interface	SlimPort® to VGA
Requirements	Devices need to be compliant with the SlimPort® specification
Power Supply	Bus Powerd / ext. Power adapter of the mobile device

SlimPort® is a trademark of Analogix Semiconductor Inc., in the United States and other countries.

ICY BOX IB-AC518 SlimPort® to VGA Adapter

The converter

The IB-AC518 can convert video signals directly from Slimport® to VGA. It is connected to your latest devices with the SlimPort® standard to existing setups with VGA. In addition, a micro USB connection is available for the power supply of your mobile device, so that besides the video transmission your battery can be recharged.

The old one

VGA has been a reliable and widely used video connection for a long time and it is still found on many devices. It can still transmit 1080p content, making it a trusted companion.

The new one

SlimPort® is capable to both transmit video signals and charge your mobile device with a new connection. For a list of devices support for SlimPort®, please visit our Compatibility List.

General Requirements

Devices must meet the SlimPort® specification.
