ICY BOX **IB-AC544** Mini DisplayPort™ to HDMI® Adapter

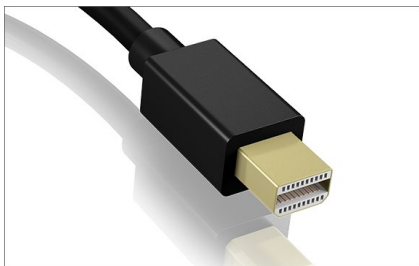

It's that easy

Watching movies on a big screen rather than the small notebook screen is a much better experience. And all that in Ultra HD quality!

Everything you need

Thanks to the Mini DisplayPort™ connection as input, a desktop PC or a notebook could be the source for movies (or any VOD service on the internet)

And on the other side

What is needed is an HDMI® interface. This means if your TV supports HDMI® and the appropriate resolution, you can watch movies in a resolution of up to 4K (3840x2160@60 Hz).
