Transition Notice: 4343L Open Frame Touchscreen Display

Product Information

As part of the major upgrade to Elo's Large Format Open Frame Touchscreen Displays, the 4343L is being discontinued and transitioned to the upcoming 4363L. The new open frame displays offer backwards compatibility with upgraded touch performance to 40 touches and the option to choose between clear glass with anti-friction or anti-glare. While we work to minimize product changes, they are needed from time to time. When this occurs, we try to offer a suitable replacement product with equal or better specifications.

4363L Open Frame Displays

Perfect for everything from public venue self-service kiosks to built-in application installs for retail, hotels, gaming, and transportation, the 63-Series open frame touchscreen displays offer:

40-touch PCAP • Ready for 24/7 use • 3-year warranty
Clear glass with anti-friction or anti-glare
Touch Thru up to 6mm glass / 3mm plastic
Compliant with UL-60950 & IK-07 impact testing
Compatible with EloView® via Elo Backpack®

Inventory and Last Time Buy

- Please note that remaining inventory will be available on a first-come first-served basis. We will work closely with existing customers to navigate this transition.
- Last time buy orders will be accepted through **August 31st, 2021** with last time ship to be completed by **November 30th, 2021**.
- Please consult with your sales representative for specific part numbers and details.
- Recommended replacement part may not be electrically or mechanically identical to the discontinued product.
