- [Important Note](#)

Definitions of Notes

We use the following symbols and conventions throughout this User's Guide:

 DANGER	DANGER indicates an imminently hazardous situation which, if not avoided, will result in death or serious injuries.
 WARNING	WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injuries.
 CAUTION	CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injuries.
IMPORTANT	IMPORTANT indicates a potentially hazardous situation which, if not avoided, may result in damage to property or loss of product functionality.
NOTE	NOTE specifies the operating environment, conditions for installation, or special conditions of use.
	The tips icon indicates helpful hints and supplementary information.
Bold	Bold style identifies buttons on the machine's control panel or computer screen.
<i>Italics</i>	Italicized style emphasizes an important point or refers you to a related topic.
Courier New	Courier New font identifies messages shown on the machine's LCD.

General Precautions

- Depending on the area, material, and environmental conditions, the label may unpeel or become permanently affixed, and the color of the label may change or be transferred to other objects. Before affixing the label, check the environmental conditions and the material. Test the label by affixing a small piece of it to an inconspicuous area of the intended surface.
- DO NOT use the machine, components, or supplies in any way or for any purpose not described in this guide. Doing so may result in accidents or damage.
- Use only Brother TZe tapes with the Label Maker. DO NOT use tapes that do not have the  mark.
- Use a soft wipe to clean the Print Head; never touch the Print Head.
- DO NOT try to print if the cassette is empty; it will damage the Print Head.
- DO NOT pull the tape while printing or feeding; it will damage the tape and the Label Maker.
- Any data stored in memory will be lost due to failure, or repair of the printer, or if the batteries discharge completely.
- Printed characters may look different than previewed, as your device's or computer's screen may have a higher resolution than the printer.
- The displayed label length may differ from the actual length of the printed label.
- When power is disconnected for two minutes, all text, format settings, and any text files stored in the memory will be cleared.
- Be sure to read the instructions provided with the Fabric Iron-On Tapes, Extra Strength Adhesive Tapes, or other special tapes and observe all precautions noted in the instructions.

Keyboard Overview

1. Power

Press to turn on or off the Label Maker.

2. Home/Bluetooth

Press to return to the Home Screen. To turn Bluetooth on or off, press **Home/Bluetooth** and the **Shift** key simultaneously.

3. Clear

Press to clear all text and print settings.

4. Escape

Press to cancel the current operation.

5. Cursor

Press to move the cursor in the direction of the arrow.

6. OK

Press to select the displayed option.

7. Function

Press to select a function menu.

To display the attributes, press **Function** and the **Shift** key simultaneously.

8. Preview/Feed & Cut

Press to view an image of the label before printing.

To feed the Tape, press **Preview/Feed & Cut** and the **Shift** key simultaneously.

9. Print/Print Options

Press to print.

To set Print Options, press **Print/Print Options** and the **Shift** key simultaneously.

10. Backspace

Press to delete any character to the left of the cursor.

11. Shift

Press and hold when pressing a letter or number key to type an uppercase letter or the symbol marked on the number key.

To move the cursor to the beginning of the previous or next block, press **Shift** and the **▲** or **▼** key simultaneously.

To move the cursor to the beginning or end of the current line, press **Shift** and the **◀** or **▶** key simultaneously.

12. Enter

Press to confirm your selection.

13. Accent

Press to select and insert an accented character.

14. Space

Press to insert a blank space.

Press to return to the default value.

15. Symbol

Press to select and insert a symbol from the symbols menus.

16. Scale/Zoom

Press to change the magnification of the preview.

17. Shift

Press and hold when pressing a letter or number key to type an uppercase letter or the symbol marked on the number key.

To move the cursor to the beginning of the previous or next block, press **Shift** and the **▲** or **▼** key simultaneously.

To move the cursor to the beginning or end of the current line, press **Shift** and the **◀** or **▶** key simultaneously.

18. Caps

Press to use only uppercase letters (ALL CAPS mode).

When Caps mode is on, all letters entered are typed in uppercase.

19. Tab

Press to insert a tab.

Related Information

- [Set Up Your Label Maker](#)

Connect the AC Adapter

If connecting a power adapter, use only the AC Adapter, part number AD-E001A, specifically designed for this Label Maker.

1. Insert the AC Adapter cord into the AC Adapter Jack on the side of the Label Maker.
2. Insert the plug into the nearest standard electrical outlet.

✓ Related Information

- [Set Up Your Label Maker](#)

Install Batteries

To ensure memory backup, we recommend using six new AA alkaline batteries (LR6) along with the AC Adapter.

NOTE

- To safeguard and back up the Label Maker's memory, when the AC Adapter is unplugged, we recommend having AA alkaline batteries installed in the Label Maker.
- When power is disconnected for more than two minutes, all text and format settings will be cleared. Any text files saved in the memory will also be cleared.
- Remove the batteries if you do not intend to use the Label Maker for an extended period of time.
- Dispose of the batteries at an appropriate collection point, not in the general waste stream. In addition, be sure to observe all applicable federal, state, and local regulations.
- When storing or discarding the batteries, wrap them (for example, with cellophane tape, as illustrated), to prevent them from short-circuiting.

1. Cellophane tape
2. Alkaline battery

1. Open the Battery Compartment Cover.

2. Install six new AA alkaline batteries (LR6).
Make sure they are installed in the correct direction.

3. Close the Battery Compartment Cover.

To remove the batteries, reverse the installation procedure.

Related Information

- [Set Up Your Label Maker](#)

Insert Tape Cassette

1. Open the Tape Cassette Compartment Cover.

2. Insert the Tape Cassette as illustrated.

NOTE

When inserting the Tape Cassette, make sure the tape does not catch on the Print Head.

3. Close the Tape Cassette Compartment Cover.

If you cannot close the Tape Cassette Compartment Cover, make sure the Release Lever is in the 'up' position. If not, lift the Release Lever, and then close the cover.

Apply Character Attributes to a Line of Text

If you add multiple lines in your label, you can format each line of text to look different.

1. Type the lines of characters or text you want on your label.
2. Press ▲ or ▼ to move the cursor to the line whose character attributes you want to change.
3. Press **Shift** and **Fn** to display the available formatting attributes.

Three black lines (1) on the left side of the character attribute indicate that you are now applying the attribute to that specific line only.

4. Press ▲ or ▼ to select an attribute, and then press **OK**.
5. Press ▲ or ▼ to set a value for that attribute, and then press **OK**.
6. Press **Esc** to return to the text entry screen.

When different attribute values are set for each line, each line's values appear as three black lines (1), also called a 'hamburger menu', when you press **Fn**.

Use Templates

Select a layout from the preloaded templates included with your Label Maker, enter your text, and then apply any formatting you want. For preloaded templates, see *Related Topics: Template Options*.

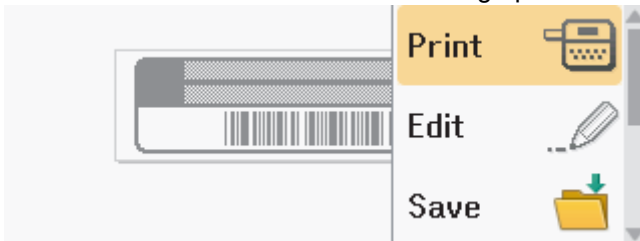

If the width of the current Tape Cassette does not match the set width for the selected template, an error message appears when you try to print the label. Press **Esc** or any other key to clear the error message, and then insert the correct Tape Cassette or choose a different template.

Example - To customize and print the preloaded template named Asset Tag 1:

1. Press **Home**.
2. Press **Left** or **Right** to display [Auto Format], and then press **OK**.
3. Press **Up** or **Down** to display [Templates], and then press **OK**.
4. Press **Up** or **Down** to display [Asset Management], and then press **OK**.
5. Press **Up** or **Down** to display [Asset Tag 1], and then press **OK**.
6. Enter the text you want, and then press **OK**.
7. Enter the text for the next field, and then press **OK**.
8. Press **Up**, **Down**, **Left**, or **Right** to select a barcode attribute, and then press **OK**.
9. Enter the barcode data, and then press **OK**. For more information, see *Related Topics: Create a Barcode Label*.
10. Do one of the following:
 - Select [Print], and then press **OK**.
 - Press **Up** or **Down** to select one of the following options:

Option	Description
Edit	Change the text.
Save	Save the label. For more information, see <i>Related Topics: Use the File Memory</i> .
Menu	Change the Font or Style settings.
Preview	Preview the label before printing. Press Scale/Zoom to change the LCD magnification.
Print Options	Select print options. For more information, see <i>Related Topics: Print Labels</i> .

11. Press **Up** or **Down** to select the number of labels you want to print, and then press **Print** or **OK**.

Use Block Layouts

You can choose different Block Layouts, based on the tape size, to arrange text lines on your label. Select one of the Block Layout options, enter your text, and then apply text formatting if needed. To see what options are available for the tape you are using, see *Related Information: Block Layout Options*.

1. Press .
2. Press ◀ or ▶ to display [Auto Format], and then press **OK**.
3. Press ▲ or ▼ to display [Block Layouts], and then press **OK**.
4. Press ▲ or ▼ to select the tape width you want, and then press **OK**.
5. Press ▲ or ▼ to select the block layout you want, and then press **OK**.
6. Enter the text you want, and then press **OK**.
7. Repeat these steps for each text field, and then press **OK**.
8. Press **OK** to display the print menu.
9. Do one of the following:
 - Select [Print], and then press **OK**.
 - Press ▲ or ▼ to select one of the following options:

Option	Description
Edit	Change the text.
Save	Save the label. For more information, see <i>Related Topics: Use the File Memory</i> .
Menu	Change the Font, Align, or Frame settings.
Preview	Preview the label before printing. Press  to change the magnification of the LCD.
Print Options	Select print options. For more information, see <i>Related Topics: Print Labels</i> .

10. Press ▲ or ▼ to select the number of labels you want to print, and then press  or **OK**.

If the width of the current Tape Cassette does not match the set width for the selected layout, an error message appears when you try to print the label. Press  or any other key to clear the error message, and then insert the correct Tape Cassette.

Create Tables

Create a table by setting the number of rows and columns you want. You can save the file as a template to reuse in other labels.

There is a maximum number of rows, depending on the tape width.

Max Lines	Tape Width
7 lines	0.94" (24 mm)
5 lines	0.70" (18 mm)
3 lines	0.47" (12 mm)
2 lines	0.35" (9 mm) 0.23" (6 mm)

1. Press .
2. Press ◀ or ▶ to display [Auto Format], and then press **OK**.
3. Press ▲ or ▼ to display [Table Format], and then press **OK**.
Use the ▲, ▼, ◀, and ▶ keys to create your table.
4. Press ▲ or ▼ to select the tape width you want, and then press **OK**.
5. Press ▲ or ▼ to select [Rows].
6. Press ◀ or ▶ to set the number of rows you want.
7. Press ▲ or ▼ to select [Columns].
8. Press ◀ or ▶ to set the number of columns you want, and then press **OK**.
9. Enter the text you want, and then press **OK**.
10. Repeat these steps for each text field, and then press **OK**.
11. Do one of the following:
 - Select [Print], and then press **OK**.
 - Press ▲ or ▼ to select one of the following options:

Option	Description
Edit	Change the text.
Save	Save the label. For more information, see <i>Related Topics: Use the File Memory</i> .
Menu	Change the Font or Style settings.
Preview	Preview the label before printing. Press  to change the LCD magnification.
Print Options	Select print options. For more information, see <i>Related Topics: Print Labels</i> .

12. Press ▲ or ▼ to select the number of labels you want to print, and then press  or **OK**.

- 0.13" (3.5 mm) tape cannot be used to create tables.
- If the width of the current Tape Cassette does not match the set width for the selected layout, an error message appears when you try to print the label. Press  or any other key to clear the error message, and then insert the correct Tape Cassette.

Create and Print Barcodes

The Label Maker is not designed exclusively for creating barcode labels. Always check that barcode labels can be read by the barcode reader.

For best results, print barcode labels in black ink on white tape. Some barcode readers may not be able to read barcode labels created using colored tape or ink.

Up to five barcodes can be printed on a label.

NOTE

- Use the [Large] setting for [Width] whenever possible. Some barcode readers may not be able to read barcode labels created using the [Small] setting.
- Continuously printing a large number of labels with barcodes can overheat the Print Head, which may affect the print quality.
- Symbols are available only for the CODE39, CODE128, CODABAR, or GS1-128 protocols.
- The "C.Digit" (Check Digit) attribute is available only for the CODE39, I-2/5, and CODABAR protocols.

1. Press .
2. Press ▲ or ▼ to display [Barcode], and then press **OK**.
3. Press ▲, ▼, ◀, or ▶ to select an attribute, and then press **OK**.
4. Enter the barcode data. For more information, see *Related Topics*.
5. Press  or .
6. Press ▲ or ▼ to select a character, and then press **OK**.
7. Press **OK**.

Notes on Using P-touch Transfer Manager (Windows)

Some P-touch Editor functions are not available with the printer, so keep the following points in mind when using P-touch Editor to create templates.

You can preview created templates before they are transferred to the printer.

Creating Templates

- Some of the text in the templates transferred to the printer may be printed using similar fonts and character sizes loaded in the printer. As a result, the printed label may differ from the image of the template created in P-touch Editor.
- Depending on the text object setting, the character size may be automatically reduced or some of the text may not be printed. If this occurs, change the Text Object setting.
- Although character styles can be applied to individual characters in P-touch Editor, styles can be applied to a block of text only from the printer. In addition, some character styles are not available on the printer.
- Backgrounds specified in P-touch Editor are not compatible with the printer.
- The P-touch Editor layout using the split printing function (enlarging the label and printing it on two or more labels) cannot be transferred.
- Only the portion of the label within the printable area is printed.

Transferring Templates

- The printed label may differ from the image appearing in the preview area of P-touch Transfer Manager.
- If a two-dimensional barcode other than a QR code not loaded on the printer is transferred to the printer, the barcode is converted into an image. The image of the converted barcode cannot be edited.
- All transferred objects that cannot be edited by the printer are converted into images.
- Grouped objects are converted into a single bitmap.
- If objects overlap, only the bottom object is printed.

Transferring Data Other Than Templates

If the number or order of fields in a database is changed and only the database (CSV file) is transferred to update it, the database may not link correctly with the template. In addition, the first line of data in the transferred file must be recognized by the printer as "field names."

Transfer Templates or Other Data from the Computer to the Printer (Windows)

To transfer templates from a mobile device to the printer, see *Related Information*.

1. Connect the printer to the computer using a USB cable, and then turn on the printer.
The printer model name appears next to a printer icon in the folder view.
If you select the printer in the folder view, the current templates and other data stored in the printer appear.

If a printer is disconnected or offline, it does not appear in the folder view.

2. Select the printer you want to transfer the template or other data to.

Transfer Name	Size	Layout	Time	Key Assign	Name
name	1KB	Layout	24/10/2018 11:22:32 AM	-	name.lbx
CD	1KB	Layout	24/10/2018 3:13:35 PM	-	CD.lbx
address	1KB	Layout	24/10/2018 3:15:15 PM	-	address.lbx

3. Right-click the **Configurations** folder, select **New**, and then create a new folder.

4. Do one of the following:

- Drag the template or other data you want to transfer and place it in the new folder.
- To transfer multiple templates or other data, drag the files you want to transfer, and then place them in the new folder. Each file is assigned a Key Assign number (memory location in the printer) when it is placed in the new folder.

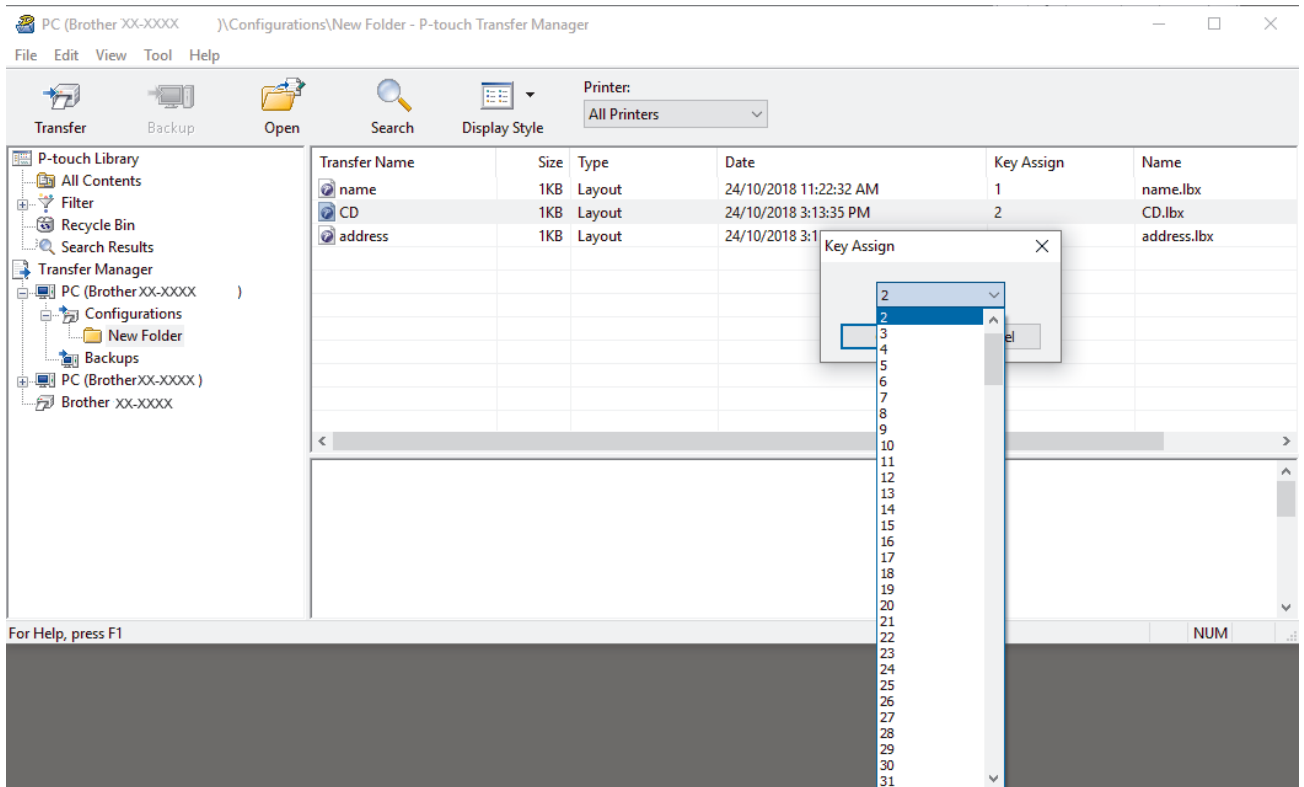

Data type	Maximum number of transferable items	Restriction details
Template	20	<ul style="list-style-type: none"> • Each template can contain a maximum of 20 objects. • Each object can contain a maximum of seven lines.
Database	20	<ul style="list-style-type: none"> • Only CSV files can be transferred. • Each CSV file can contain a maximum of 255 fields and 65000 records.

- You can confirm the available space in the transfer file memory by printing the configuration report.
- You can view the templates and other data by selecting:
 - The folder in the **Configurations** folder
 - **All Contents**
 - One of the categories under **Filter**, such as **Layouts**

5. To change the Key Assign number assigned to an item, right-click the item, select the **Key Assign** menu, and then select the Key Assign number you want.

- Except for the data in databases, all data transferred to the printer is assigned a key number.
- If the template or other data transferred to the printer has the same key number as another template already saved in the printer, the new template overwrites the old one. You can confirm the assigned template numbers saved in the printer by backing up the templates or other data.
- If the printer memory is full, remove one or more templates from the printer's memory.

6. To change the template names or other data you want to transfer, click the item you want, and then type the new name.

The number of characters used for the template names may be limited depending on the printer model.

7. Select the folder containing the templates or other data you want to transfer, and then click **Transfer**.

A confirmation message appears.

- You can also transfer individual items to the printer without adding them to a folder. Select the template or other data you want to transfer, and then click **Transfer**.
- Multiple items and folders can be selected and transferred in one operation.

8. Click **OK**.

The selected items are transferred to the printer.

Related Information

- [About Transferring Templates from the Computer to the Printer \(Windows\)](#)

Back up Templates or Other Data Saved in the Printer (Windows)

- Backed up templates or other data cannot be edited on the computer.
- Depending on the printer model, backed up templates or data may not be transferable between different models.

1. Connect your computer to the Label Maker and turn on the Label Maker.

The printer model name appears next to a printer icon in the folder view. If you select the printer in the folder view, the current templates and other data stored in the printer appear.

2. Select the printer to back up from, and then click **Backup**.

A confirmation message appears.

3. Click **OK**.

A new folder is created under the printer in the folder view. The folder name is based on the date and time of the backup. All of the printer's templates and other data are transferred to the new folder and saved on the computer.

Related Information

- [Transfer Templates to the Printer Using P-touch Transfer Manager \(Windows\)](#)

Delete Printer Data (Windows)

To delete all templates and other data saved on the printer, do the following:

1. Connect the computer to the Label Maker and turn on the Label Maker.
The printer model name appears next to a printer icon in the folder view.
2. Right-click the printer, and then select the **Delete All** menu.

A confirmation message appears.

3. Click **OK**.
All templates and other data saved on the printer are deleted.

- >> [Distribute the Transfer Package File \(PDZ\) and P-touch Transfer Express to Others](#)

Preparing P-touch Transfer Express

The printer driver must be installed before using P-touch Transfer Express.

P-touch Transfer Express is available only in English.

1. Download P-touch Transfer Express to any location on the computer.
2. Decompress the downloaded file (ZIP).

Transfer a Template to P-touch Transfer Manager

To use the template transfer function, use P-touch Editor 5.4. P-touch Editor 6.0 will be updated in the future.

1. Start P-touch Editor 
 - **Windows 11:**
Click **Start > Brother P-touch > P-touch Editor**, or double-click the **P-touch Editor** icon on the desktop.

*Depending on your computer's operating system, the Brother P-touch folder may or may not be created.

- **Windows 10:**

Click **Start > Brother P-touch > P-touch Editor**, or double-click the **P-touch Editor** icon on the desktop.

- **Windows 8.1:**

Click the **P-touch Editor** icon on the **Apps** screen, or double-click the **P-touch Editor** icon on the desktop.

2. Open the template you want.

3. Click **File > Transfer Template > Transfer**.

The template is transferred to P-touch Transfer Manager. P-touch Transfer Manager starts.

Save the Template as a Transfer Package File (PDZ)

To create a file in a format that can be used by P-touch Transfer Express, save the template as a Transfer Package file (PDZ).

1. Select the **Configurations** folder in the P-touch Transfer Manager window.
2. Select the templates you want to distribute.
3. Click **File > Save Transfer File**.

- The **Save Transfer File** option appears only if the printer is disconnected from the computer or offline.
- If you click the **Save Transfer File** option after selecting the **Configurations** folder or a created folder, all templates in the folder are saved as the Transfer Package file (PDZ).
- You can combine multiple templates into a single Transfer Package file (PDZ).

4. Type the name, and then click **Save**.

The template is saved as a Transfer Package file (PDZ).

Distribute the Transfer Package File (PDZ) and P-touch Transfer Express to Others

If you already downloaded P-touch Transfer Express, it is not necessary for the administrator to send the Transfer Express folder. In this case, you can simply move the distributed Transfer Package file to the downloaded folder, and then double-click the **PtTrExp.exe** file.

1. Move the Transfer Package file (PDZ) to the downloads folder.

2. Distribute all the files in the downloads folder to others.

User Tasks

Transfer the Transfer Package File (PDZ) to Your Printer

Do not turn off the power when transferring templates.

1. Turn on the Label Maker.
2. Connect the printer to the computer using a USB cable.
3. Double-click the **PtTrExp.exe** file received from the administrator.
4. Do one of the following:
 - To transfer a single Transfer Package file (PDZ) within the folder containing the **PtTrExp.exe** file, click **Transfer**.
 - To transfer multiple Transfer Package files (PDZ) within the folder containing the **PtTrExp.exe** file, do the following:

- a. Click **Browse**.

- b. Select the Transfer Package file you want to transfer, and then click **Open**.
 - c. Click **Transfer**.
 - d. Click **Yes**.
5. When completed, click **OK**.

Edit Templates Using P-touch Library (Windows)

1. Start the P-touch Library.

- **Windows 11:**

Click **Start > Brother P-touch > P-touch Library**.

*Depending on your computer's operating system, the Brother P-touch folder may or may not be created.

- **Windows 10:**

Click **Start > Brother P-touch > P-touch Library**.

- **Windows 8.1:**

Click the **P-touch Library** icon on the **Apps** screen.

The main window appears.

Overview of the Toolbar Icons

Icon	Button name	Function
	Open	Click to open the selected template.
	Print	Click to print the selected template.
	Search	Click to search for templates registered to P-touch Library.
	Display Style	Click to change the file display style.

2. Select the template you want to edit, and then click **Open**.

You can now edit the template.

- [Store and Manage Templates \(P-touch Library\)](#)

Search Templates Using P-touch Library (Windows)

1. Start the P-touch Library.

- **Windows 11:**

Click **Start > Brother P-touch > P-touch Library**.

*Depending on your computer's operating system, the Brother P-touch folder may or may not be created.

- **Windows 10:**

Click **Start > Brother P-touch > P-touch Library**.

- **Windows 8.1:**

Click the **P-touch Library** icon on the **Apps** screen.

The main window appears.

2. Click **Search**.

The **Search** dialog box appears.

3. Specify the search criteria.

The following search criteria are available:

Settings	Details
Multiple Parameters	Determines how the program searches when multiple criteria are specified. If you select AND , the program searches for files meeting all of the criteria. If you select OR , the program searches for files meeting any of the criteria.
Name	Search for a template by specifying the file name.
Type	Search for a template by specifying the file type.
Size	Search for a template by specifying the file size.
Date	Search for a template by specifying the file date.

4. Click **Begin Search**.

The search begins and the search results are displayed.

5. Close the **Search** dialog box.

To confirm the search results, click **Search Results** in the folder view.

You can register templates to P-touch Library by dragging and dropping them into the **All Contents** folder or to the folder list.

Routine Maintenance

- [Maintenance](#)

Maintenance

Always remove the batteries and disconnect the AC Adapter before cleaning the Label Maker.

- >> [Clean the Unit](#)
- >> [Clean the Print Head](#)
- >> [Clean the Tape Cutter](#)

Clean the Unit

1. Wipe any dust and marks from the Label Maker using a soft, dry cloth.
2. Use a slightly dampened cloth on difficult to remove marks.

Do not use paint thinner, benzene, alcohol or any other organic solvent. These may deform or damage the case of your Label Maker.

Clean the Print Head

Streaks or poor quality characters on printed labels generally indicate that the Print Head is dirty. Clean the Print Head using a cotton swab or the optional Print Head Cleaning Cassette (TZeCL5).

- Do not touch the Print Head directly with your bare hands.
- Read and follow the instructions provided with the Print Head Cleaning Cassette.

Clean the Tape Cutter

Tape adhesive can build up on the cutter blade after repeated use, taking the edge off the blade, which may result in the tape jamming in the cutter.

About once a year, wipe the cutter blade using a cotton swab moistened with Isopropyl alcohol (rubbing alcohol).

- Do not touch the cutter blade directly with your bare hands.
 - Use isopropyl alcohol according to the manufacturer's guidelines.

If You Are Having Difficulty with Your Label Maker

This chapter explains how to resolve typical problems you may encounter when using the Label Maker.

If you still have problems, see *Related Information*. If after reading the topics you are unable to resolve the problem, visit the Brother support website at support.brother.com.

Problem	Solution
The Label Maker does not print.	<ul style="list-style-type: none"> • Check that the Tape Cassette is inserted correctly. • If the Tape Cassette is empty, replace it. To order supplies and accessories, visit www.brother-usa.com. • Check that the Tape Cassette Compartment Cover is securely closed. • Check that the Label Maker is on. • Check that the computer's or mobile device's Bluetooth setting is on. • Check that the Label Maker is connected to the computer or your mobile device via Bluetooth. • Check that the Label Maker is selected in the Brother iPrint&Label app. • Check that the Label Maker is not paired with another device. • Make sure the Label Maker and your mobile device or computer are close enough to communicate. • Check that the automatic Bluetooth reconnection setting of another computer or mobile device is not enabled. • Make sure no devices that emit radio waves (for example, a microwave oven) are located nearby. • Check that the correct printer driver is installed when printing from a computer. • Connect the Label Maker to your computer using the USB Cable (included) when printing from a computer. • If the Print Head is dirty, clean it with a cotton swab or optional Print Head Cleaning Cassette (TZeCL5).
<ul style="list-style-type: none"> • The tape does not feed correctly. • The tape gets stuck inside the Label Maker. 	<ul style="list-style-type: none"> • If the tape is bent, cut off the bent section. • If the tape is jammed, remove the Tape Cassette, remove the jammed tape, and then cut off any damaged tape. • Check that the end of the tape exits through the Tape Guide. • Confirm that the tape is pointed at the Tape Exit Slot. • Remove the Tape Cassette and insert it again.
An error occurred when using a mobile app.	Go to your mobile application's settings menu and select Support > FAQs & Troubleshooting .
The screen has locked.	<ul style="list-style-type: none"> • Reset the internal memory to the factory settings. For more information, see <i>Related Topics</i>. • Disconnect the AC Adapter and remove the batteries for at least 10 minutes.
The LCD remains blank after turning on the power.	Check that the batteries are correctly installed or that the AC Adapter included with your Label Maker is correctly connected.
The LCD messages are displayed in a foreign language.	Set the LCD language you want. For more information, see <i>Related Topics</i> .
The Label Maker stops while printing a label.	<ul style="list-style-type: none"> • Replace the Tape Cassette if striped tape is visible, as this indicates that you have reached the end of the tape. • Replace all batteries or connect the AC Adapter directly to the Label Maker.
Previously saved label files are not available.	All files saved in the internal memory are deleted when the batteries are weak or the AC Adapter is disconnected.
<ul style="list-style-type: none"> • I cannot install the Printer Driver even if I 	<p>If you cannot use your Label Maker even though you have installed the Printer Driver:</p> <ol style="list-style-type: none"> 1. Download the Printer Driver Uninstaller from your model's page at support.brother.com.

Problem	Solution
<p>follow the correct procedure. (Windows)</p> <ul style="list-style-type: none"> I cannot see my printer listed in P-touch Editor even though I have installed the Printer Driver. (Windows) 	<ol style="list-style-type: none"> Use the Printer Driver Uninstaller to remove the printer information. Run the Printer Driver Installer again and follow the on-screen instructions to proceed with the installation.
<p>The ink ribbon is separated from the ink roller.</p>	<p>If the ink ribbon is damaged, replace the Tape Cassette. If it is not, leave the tape uncut and carefully remove the Tape Cassette, and then wind the loose ink ribbon back onto the spool.</p> 
<p>Printed barcodes or QR codes cannot be read.</p>	<ul style="list-style-type: none"> Change the tape. (Recommended: Black on white tape) Enlarge the barcodes or QR codes using your barcode application, if possible.
<p>I do not know the version number of the firmware for the Label Maker.</p>	<p>You can confirm the firmware version number and other information on the LCD. For more information, see <i>Related Topics</i>.</p>
<p>When the label is printed, there is too much margin (space) on both sides of the text.</p>	<ul style="list-style-type: none"> Select Small Margin, Chain, or No Cut options for smaller margins. For more information, see <i>Related Topics</i>. After the last label prints, press  and  simultaneously to feed the tape, and then eject and cut the last label. Note that the Label Maker will feed approximately 0.9" (23 mm) of tape before the next new label when you use this method.
<p>The font size cannot be increased.</p>	<p>The font is already the maximum size for the width of the label, or the label length has been set, so there is a limit on the font size to prevent exceeding the set length.</p>
<p>When multiple labels are printed, the last label is cut incorrectly.</p>	<p>When Chain is enabled, feed the tape to eject the last printed label.</p>
<p>I cannot update the printer's firmware using the P-touch Update Software, Transfer Express, or Mac Update Tool.</p>	<p>Restart the printer and then try to update the firmware again. Do not press any buttons during the firmware update until the Home Screen is displayed automatically.</p>
<p>The Label Maker does not operate normally.</p>	<ul style="list-style-type: none"> Reset the internal memory to the factory settings. For more information, see <i>Related Topics</i>. Disconnect the AC Adapter and remove the batteries for at least 10 minutes.
