PC connection

DVT1250

Easy notes recording

with 8 GB audio recording

The VoiceTracer 1250 is the perfect voice recorder for capturing notes, ideas and thoughts on the go. Thanks to the micro SD memory card slot you can easily expand your memory up to 32 GB.

Superior voice recording

- Voice activation function for hands-free recording

Easy and intuitive experience

- PC connection for plug & play
- Backlight display for easy file navigation

Designed around you

- 8 GB built in for extra long recording hours
- MicroSD memory card slot for virtually unlimited recording
- Extra long battery runtime for longer recording sessions

No 1 in SPS global customer satisfaction survey 09/2015.

Highlights

Voice-activation function

Voice-activated recording is a convenience feature for hands-free recording. When enabled, recording will start automatically when you start speaking. Recording stops automatically after you stop speaking and restarts automatically when you start speaking again.

Plug and play

Just plug your recorder into your PC and play in Windows and macOS.

Large backlit display

The large graphical display lets you view all important file information at a glance, even in poor lighting conditions, thanks to the backlit display.

8 GB memory built-in

With the 8 GB of built-in memory, your recorder is able to capture multiple days of continuous recording.

Micro SD memory card slot

Virtually unlimited recording capacity thanks to a micro SD memory card slot supporting up to 32 GB of additional memory.

Extra long battery runtime

The batteries of the new recorder last for up to 42 hours for extra long recording sessions.
