

MPN: DISPLAYPORT-DUMMY1

# Universel Virtuel Display adapter DP DisplayPort Dummy Plug

After plugging it in, it will be virtualized as a display, which will solve the problem if not connecting the display with a black screen or the lowest resolution state during remote control. This part can also solve the situation if the monitor cannot be turned on without connecting the monitor, and the graphics card does not work. This part does not need a driver.

- Maximum 3840x2160 17Hz.

## Specifications
