Description:

Displays have always been a key part of the PC experience. PC Gamers want a more immersive experience and Professionals seek more desktop space to run apps side by side and increase their productivity. The easiest solution is to add multiple Monitors to an existing Laptop or Desktop PC. The SenseVision MST Hub USB Type C to DisplayPort™ 1.2 Dual Monitor is an invaluable tool for gaming, multitasking, or simply for the fun of it. The adapter converts the video signal using displayport over USB Type C for a fast plug-and-play setup.

This product enables two Displays to be driven independently from a single USB Type C output with Displayport Alt Mode support from the source device.

(Functionality is also dependant on the capability if the source device.)
