# **About Your Dell Projector**

Your projector comes with all the items shown below. Ensure that you have all the items, and contact Dell if anything is missing.

# **Projector Box Contents**

Package Contents

Power cable

Remote control (CR2032 x 2pcs)

User's Guide and Documentation

VGA cable (VGA to VGA)

1.2 m USB cable (USB-A to USB-A)

# **Projector Top and Bottom View**

Bottom View

- 1 IR receivers
- 2 Power button
- 3 Zoom tab
- 4 Focus tab
- 5 Lens

**Top View** 

- 6 Tilt adjustment wheel
- 7 Mounting holes for wall mount
- 8 Mounting holes for ceiling mount

**NOTE:** Wall mount screw hole M4 x 8 mm depth. Wall mount dimensions : 130mm X 88mm M4 Ceiling mount screw hole M3 x 8 mm depth. Ceiling mount dimensions : 110mm X 82.3mm M3

# **Projector Connections**

1 U	SB Туре А	7	Audio input connector
2 R	J45 connector	8	Audio output connector
	SB Type A Power (+5V/1.8A) onnector and also for media / ifi	9	RS232 connector
4 H	DMI-1 (1.4) connector	10	Mini USB (mini type B) connector for firmware upgrade
5 H	DMI-2 (1.4) connector	11	Power cord connector
6 V	GA input		

CAUTION: Before you begin any of the procedures in this section, follow the Safety Instructions as described on page 7.

# CAUTION: Safety Instructions

1 Do not use the projector near appliances that generate a lot of heat.

- **2** Do not use the projector in areas where there is an excessive amount of dust. The dust may cause the system to fail and the projector will automatically shutdown.
- 3 Ensure that the projector is mounted in a well-ventilated area.
- 4 Do not block the ventilation slots and openings on the projector.
- **5** Ensure the projector operates between ambient temperatures 5°C to 40°C (41°F to 104°F).
- **6** Do not try to touch the ventilation outlet as it can become very hot after the projector has been turned on or immediately after it is turned off.
- **7** Do not look into the lens while the projector is on as it may cause injury to your eyes.
- 8 Do not place any objects near or in front of the projector or cover its lens while the projector is on as the heat may cause the object to melt or burn.
- 9 Do not use alcohol to wipe the lens.

# 🖉 NOTE:

- Do not attempt to ceiling mount the projector by yourself. It should be installed by a qualified technician.
- Recommended Projector Wall Mount Kit. For more information, see the Dell Support website at **dell.com/support**.
- For more information, see the Safety Information that shipped with your projector.
- The P519HL projector can only be used indoors.

#### WARNING: Laser Safety Notice

This product is classified as CLASS 1 LASER PRODUCT - RISK GROUP 1 according to IEC 60825-1 : 2014. Complies with FDA regulations 21 CFR 1040.10 and 1040.11 as a Risk Group 2, LIP (Laser Illuminated Projector) as defined in IEC 62471:2006 except for deviations pursuant to Laser Notice No. 50, dated June 24, 2007.

#### Do not stare into the beam, RG2

• As with any bright source, do not stare into the direct beam, RG2 IEC 62471-5:2015

- Failure to comply with the following could result in death or serious injury.
- This projector has a built-in Class 4 laser module. Never attempt to disassemble or modify the projector.
- Any operation or adjustment not specifically instructed in the User manual creates the risk of hazardous laser radiation exposure.
- Do not open or disassemble the projector as this may cause damage or exposure to laser radiation.
- Do not stare into beam when the projector is on. The bright light may result in permanent eye damage.
- When turning on the projector, make sure no one within projection range is looking into the lens.
- Follow the control, adjustment, or operation procedures to avoid damage or injury from exposure of laser radiation.
- The instructions for the assembly, operation, and maintenance include clear warnings concerning precautions to avoid possible exposure to hazardous laser radiation.

# **Remote Control**

1	Power 🕑	Turns the projector on or off.
2	Back (5)	Returns to the previous screen.
3	Up ٨	Press to navigate through the On-Screen Display (OSD) Menu items.
4	Right 🔪	Press to navigate through the On-Screen Display (OSD) Menu items.
5	Down 🗙	Press to navigate through the On-Screen Display (OSD) Menu items.
6	Volume down 🕢	Press to decrease the volume.

7	Volume up 🕡	Press to increase the volume.
8	Freeze	Press to pause the screen image, then press "Freeze" again to resume normal projection.
9	Video in	Press to switch between sources: HDMI 1, HDMI 2, Wireless/LAN Display, and USB Viewer.
10	Video mode	The projector has preset configurations that are optimized for displaying data (presentation slides) or video (movies, games, etc.).
		Press the Video Mode button to toggle between Presentation mode, Bright mode, Movie mode, sRGB, or Custom mode.
		Pressing the <b>Video Mode</b> button once will show the current display mode. Pressing the <b>Video Mode</b> button again will switch between modes.
11	Menu 🗐	Press to activate the OSD.
12	Enter 🗸	Press to confirm the selection.
13	Left	Press to navigate through the On-Screen Display (OSD) Menu items.
14	Mute 🔹	Press to mute or un-mute the projector speaker.
15	Blank Blank	Press to toggle between white/blank/resume the image.

#### **Remote Control Operating Range**

**NOTE:** Actual operating range may slightly differ from the diagram. Weak batteries will also prevent the remote control from properly operating the projector.

# **Adjusting Projector Image**

# **Adjusting Projected Zoom**

2

#### **Raising the Projector Height**

**1** Raise the projector to the desired display angle, and use the rear tilt adjustment wheel to fine-tune the display angle.

#### Lowering the Projector Height

**1** To lower the projected image, use the front tilt adjustment wheel to fine-tune the display angle.

1	Front tilt adjustment wheel (Angle of tilt: 0 to 3 degrees)
2	Rear tilt adjustment wheel

# **Adjusting Projector Position**

When you select a position for the projector, consider the size and shape of your screen, the location of your power outlets, and the distance between the projector and the rest of your equipment. Follow these general guidelines:

- When positioning the projector to the screen, it must be at least 31 inches (78.4 cm) from the projection screen.
- Position the projector to the required distance from the screen. The distance from the lens of the projector to the screen, the zoom setting, and the video format determine the size of the projected image.
- · Lens throw ratio: 0.52

You can set up or install the P519HL in the following ways:

Do not install the P519HL projector in the following ways:

# **Adjusting Image Corners**

You can use the four corner setting to adjust the shape and size of an image that is unevenly rectangular on all sides.

Advanced Settings			DELL P519HL
Image Settings	Auto Keystone	►	Off
Display Settings	V. Keystone	•	0
Projector Settings	H. Keystone	•	0
LAN Settings	Four Corner	•	Press 🖌

4 To copy files to the projector's Internal Memory, first open a file explorer window. Go to Computer and locate a Removable Disk. This refers to the Internal Memory of the projector. You may copy files to the Internal Memory. This will allow you to project the files directly from the projector in the future, without needing a computer. For supported file types, please refer to page 22.

Press the ✓ button on the remote control or keypad to access the video playback control. Then you can use the following buttons on the screen to control video playback.

# Troubleshooting

## **Troubleshooting Tips**

If you experience problems with your projector, see the following troubleshooting tips. If your problem persists, please contact Dell.

### Problem

No image appears on the screen

#### **Possible Solution**

- Ensure that you have chosen the correct input source on the INPUT SOURCE menu.
- Ensure the external graphics port is enabled. If you are using a Dell laptop computer, press m (Fn+F8). For other computers, see your respective documentation. If images are not displayed properly, please upgrade the video driver of your computer. For Dell computers, see www.dell.com/support.
- Ensure that all the cables are securely connected. See "Adjusting Projector Image" on page 12.
- Ensure that the pins of the connectors are not bent or broken.
- Use the Test Pattern in the Projector Settings of the Advanced Settings menu. Ensure that the colors of the test pattern are correct.

Problem (continued)	Possible Solution (continued)
Partial, scrolling, or incorrectly displayed image	If you are using a Dell laptop computer, set the resolution of the computer to WXGA (1280 x 800):
	aRight-click the unused portion of your Microsoft <sup>®</sup> Windows <sup>®</sup> desktop, click <b>Properties</b> , and then select <b>Settings</b> tab.
	<ul> <li>bVerify that the setting is 1280 x 800 pixels for the external monitor port.</li> <li>cPress m lime (Fn+F8).</li> </ul>
	If you experience difficulty in changing resolutions, or if your monitor freezes, restart all the equipment and the projector.
	If you are not using a Dell laptop computer, see your documentation. If images are not displayed properly, please upgrade the video driver of your computer. For a Dell computer, see www.dell.com/support.
The screen does not display your presentation	If you are using a portable computer, press
Image color is incorrect	• If the display receives the wrong signal output from the graphics card, please set the signal type to <b>RGB</b> in the OSD <b>Image Settings</b> of the <b>Advanced Settings</b> tab.
	• Use <b>Test Pattern</b> in the <b>Projector</b> <b>Settings</b> of the <b>Advanced Settings</b> menu. Ensure that the colors of the test pattern are correct.
Image is out of focus	1 Adjust the focus until the image is clear. Use Focus Adjust in the Projector Settings of the Advanced Settings menu.
	2 Ensure that the projection screen is within the required distance from the projector (2.55 ft (0.78 m) ~ 3.67 ft (1.12 m).

Problem (continued)	Possible Solution (continued)
The image is stretched when displaying a 16:9 DVD	The projector automatically detects the input signal format. It will maintain the aspect ratio of the projected image according to the input signal format with an Original setting.
	If the image is still stretched, adjust the aspect ratio in the Display Settings of the Advanced Settings menu in the OSD.
Image is reversed	Select <b>Projector Settings</b> of the <b>Advanced</b> <b>Settings</b> from the OSD and adjust the projector mode.
TEMP light is solid amber	The projector has overheated. The display automatically shuts down. Turn the display on again after the projector cools down. If the problem persists, please contact Dell.
TEMP light is blinking amber	If the projector fan fails, the projector will automatically shut down. Try to clear the projector mode by pressing and holding the <b>Power</b> button for 10 seconds. Please wait for about 5 minutes and try to power up again. If the problem persists, please contact Dell.
The remote control is not operating smoothly or works only within a limited range	The battery level might be low. If so, replace with new CR2032 battery.
LAN control support	<ul> <li>Web Control functions were verified on IE9, IE10, and IE11. The other version may have compatibility problem.</li> <li>The Compatibility View setting should be disabled. Otherwise the web control page may have icon or content display abnormal issue.</li> </ul>

# **Guiding Signals**

Laser Diode failure	Laser Diode is defective.	OFF	OFF	AMBER
Fault - DC supply (+12V)	Power supply has been interrupted. The projector automatically shuts down. Unplug/plug the power cord and then turn on the projector. If this problem persists, please contact Dell.	AMBER Flashing	AMBER	AMBER

# 5

# Maintenance

## **Replacing the Remote Control Battery**

- 1 Rotate the battery lid counterclockwise to remove the battery cover.
- 2 Insert a CR2032 coin cell battery and align the polarity correctly according to the marking in the battery holder.
- **NOTE:** When you use the remote control for the first time, there is a plastic sheet between the battery and its contact. Remove the sheet before use.

**3** Rotate the battery lid clockwise to lock the battery cover.
